MORE COMFORT

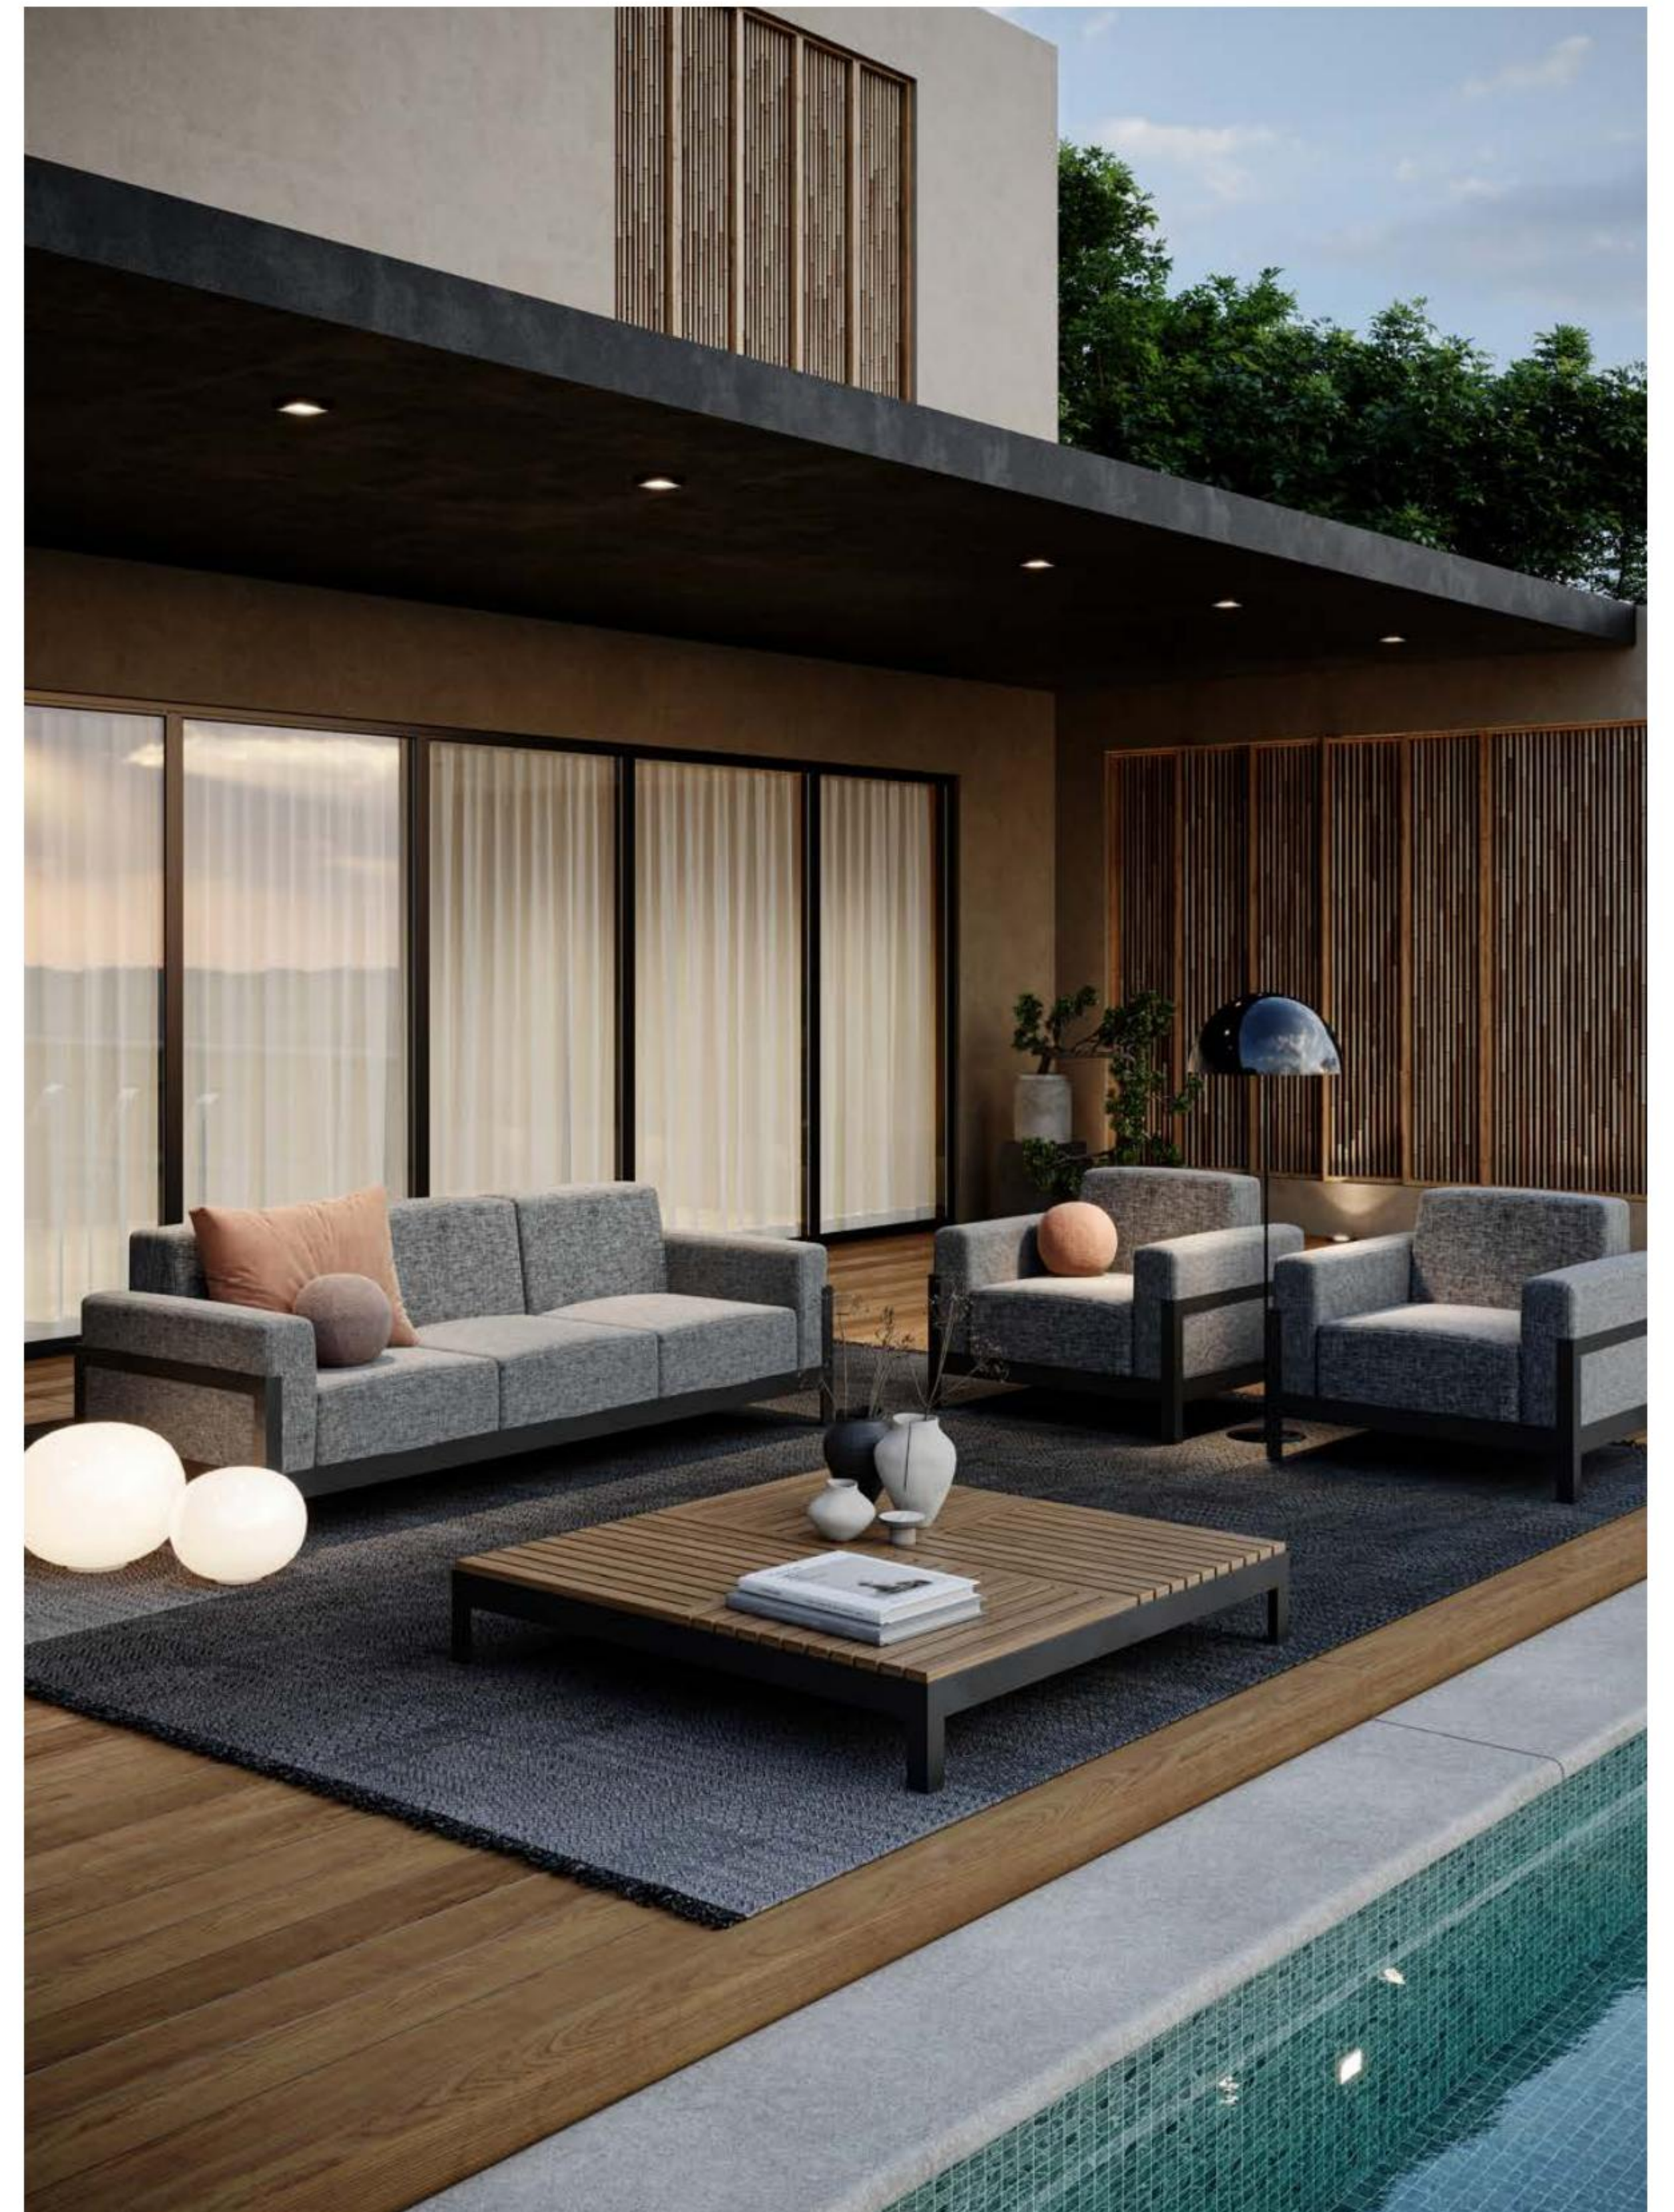

Collection

The More Comfort Collection by Clodagh features generous upholstery, which is offset by the clean, graphic lines of the metal frames. Evocative of the geometric lattices that characterize Japanese shoji screens, the understated framework promotes relaxation with its repetition of linear elements. Balancing structure and softness, the ample cushions cradle the body, while the simplicity of form fosters a meditative atmosphere to nourish the mind and spirit.

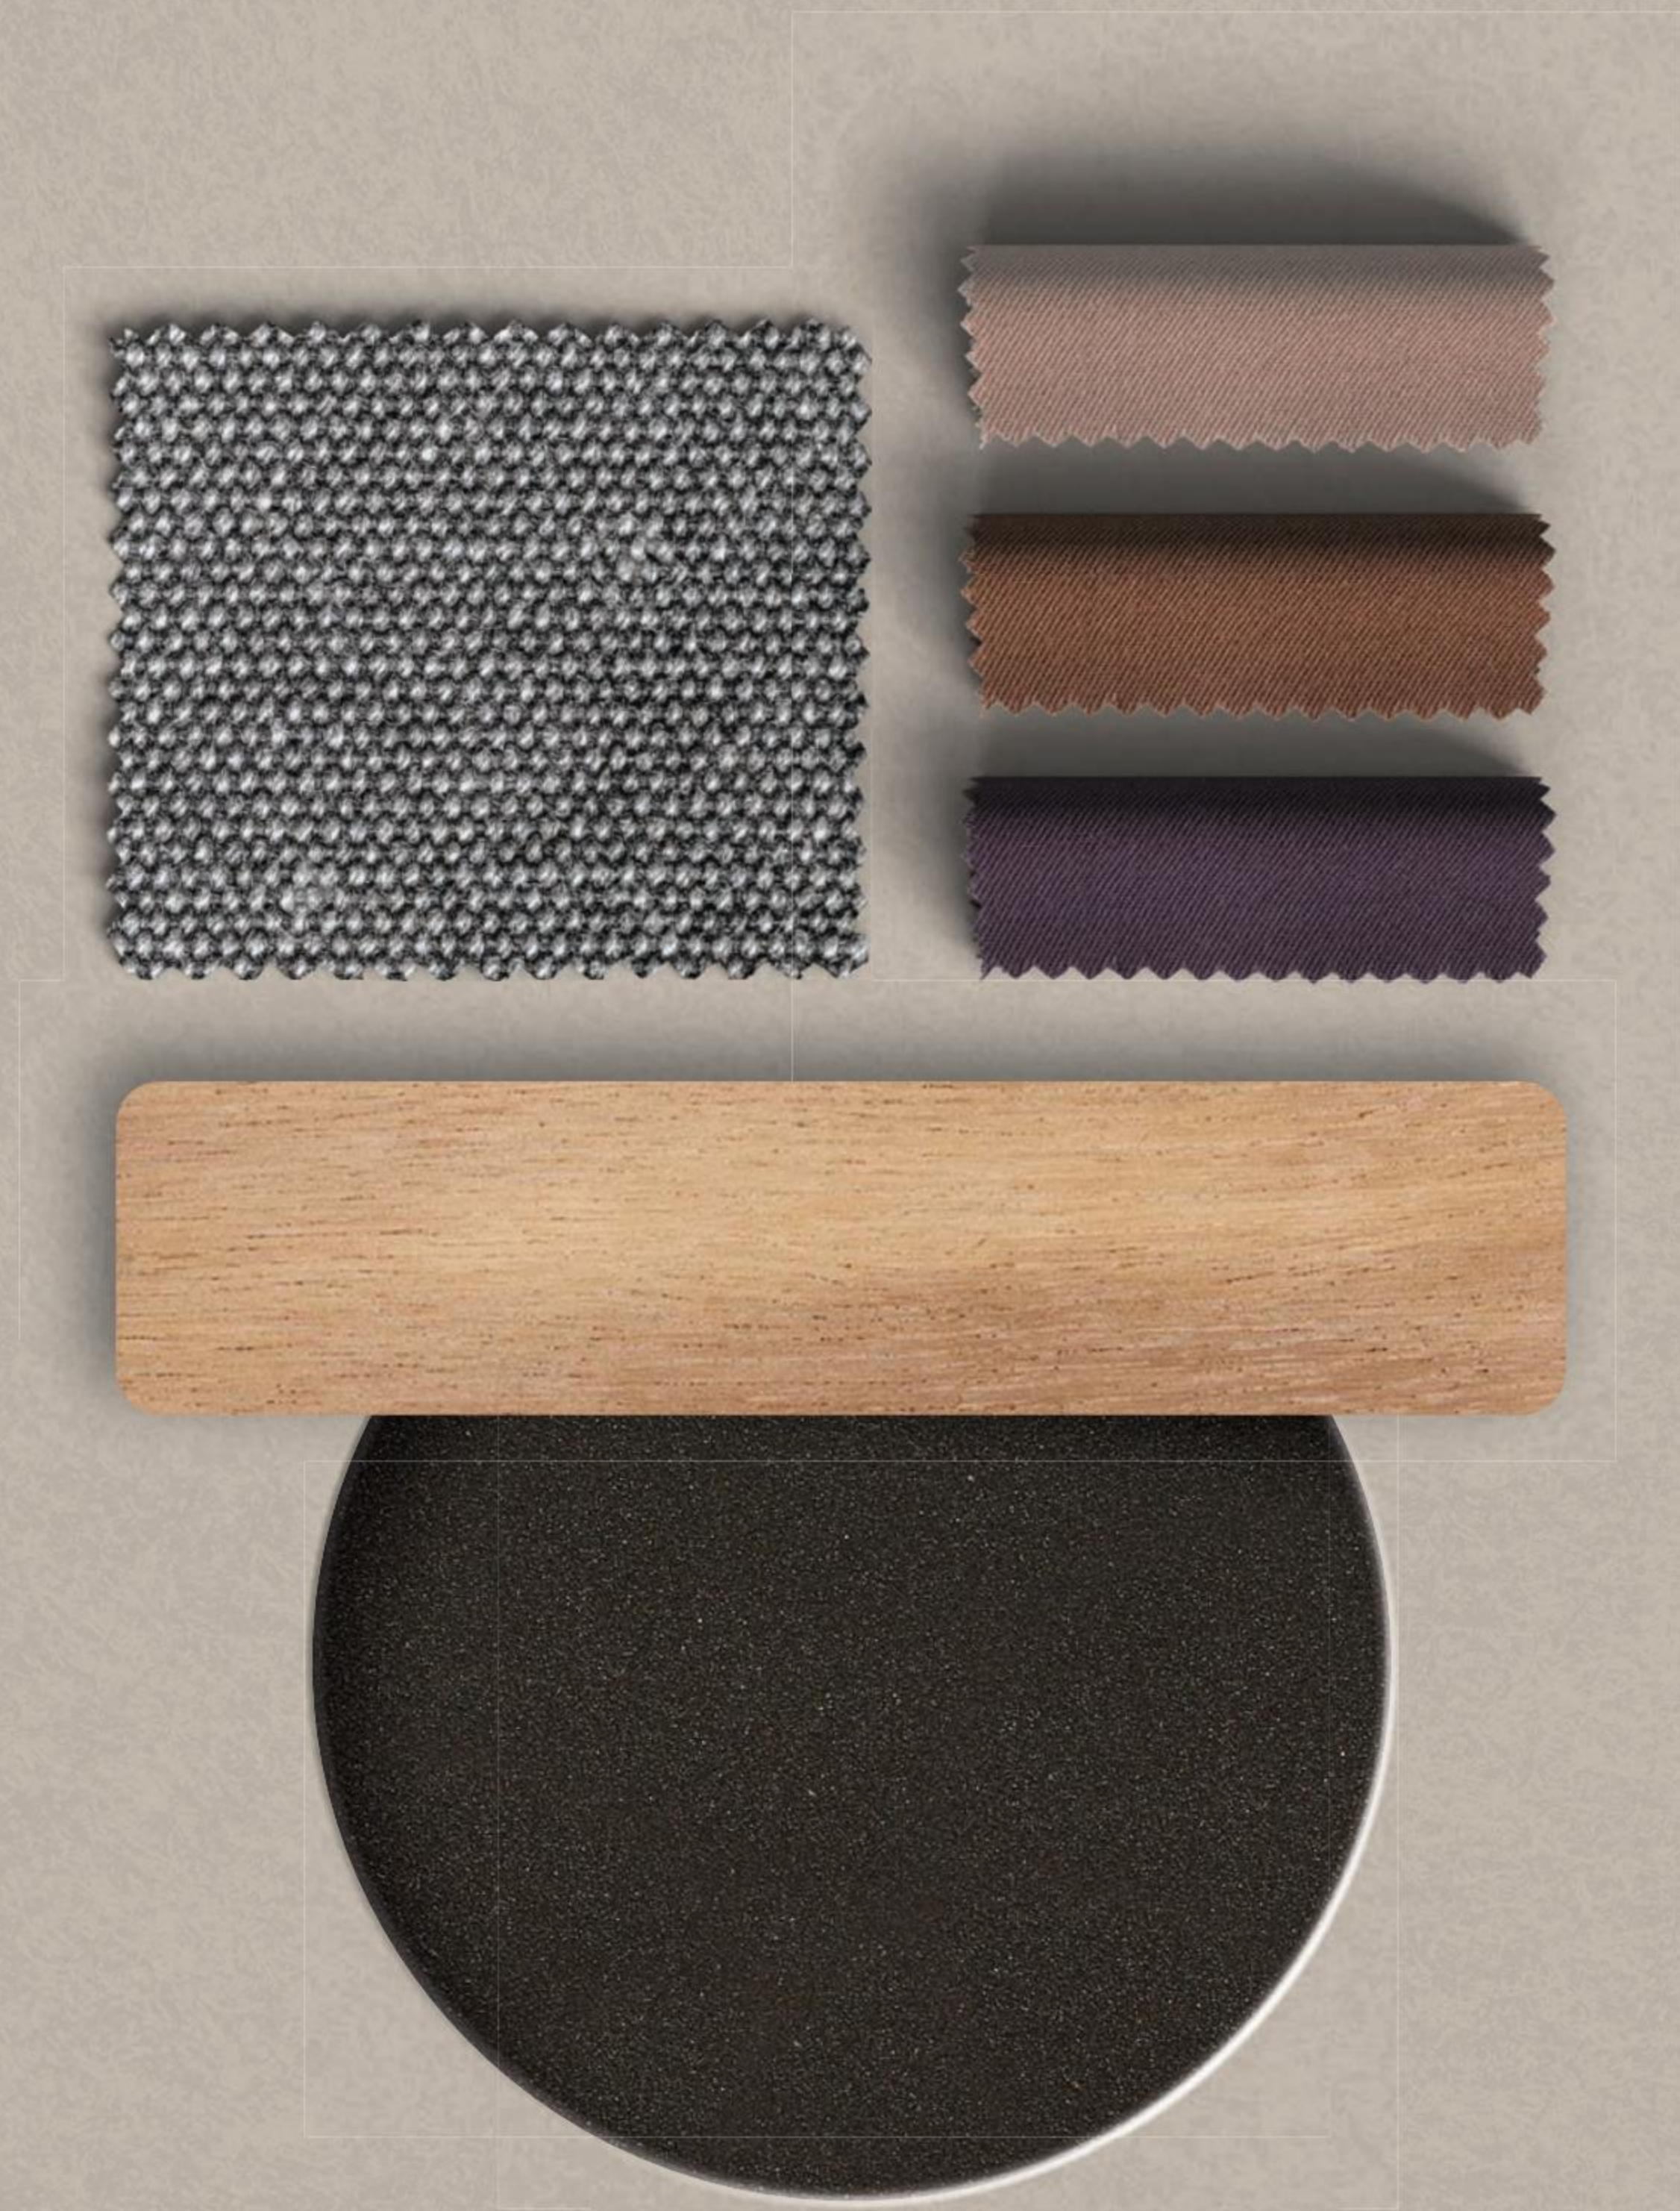

Designer

Clodagh's work spans over 24 countries and includes a wide range of residential, retail, healthcare and hospitality design projects: hotels; spas; restaurants; residential buildings; private residences; retail stores; showrooms; offices, luxury yachts and private jets.

Clodagh has been recognized with numerous awards: Interior Design Hall of Fame; Interior Design Magazine Top 100 Interior Designers; Robb Report Top 10 Interior Designers in the World; Architectural Digest Top 100 Designers in the World; Interior Design Magazine Best of Year awards in both product and project categories.

ARBOR

Collection

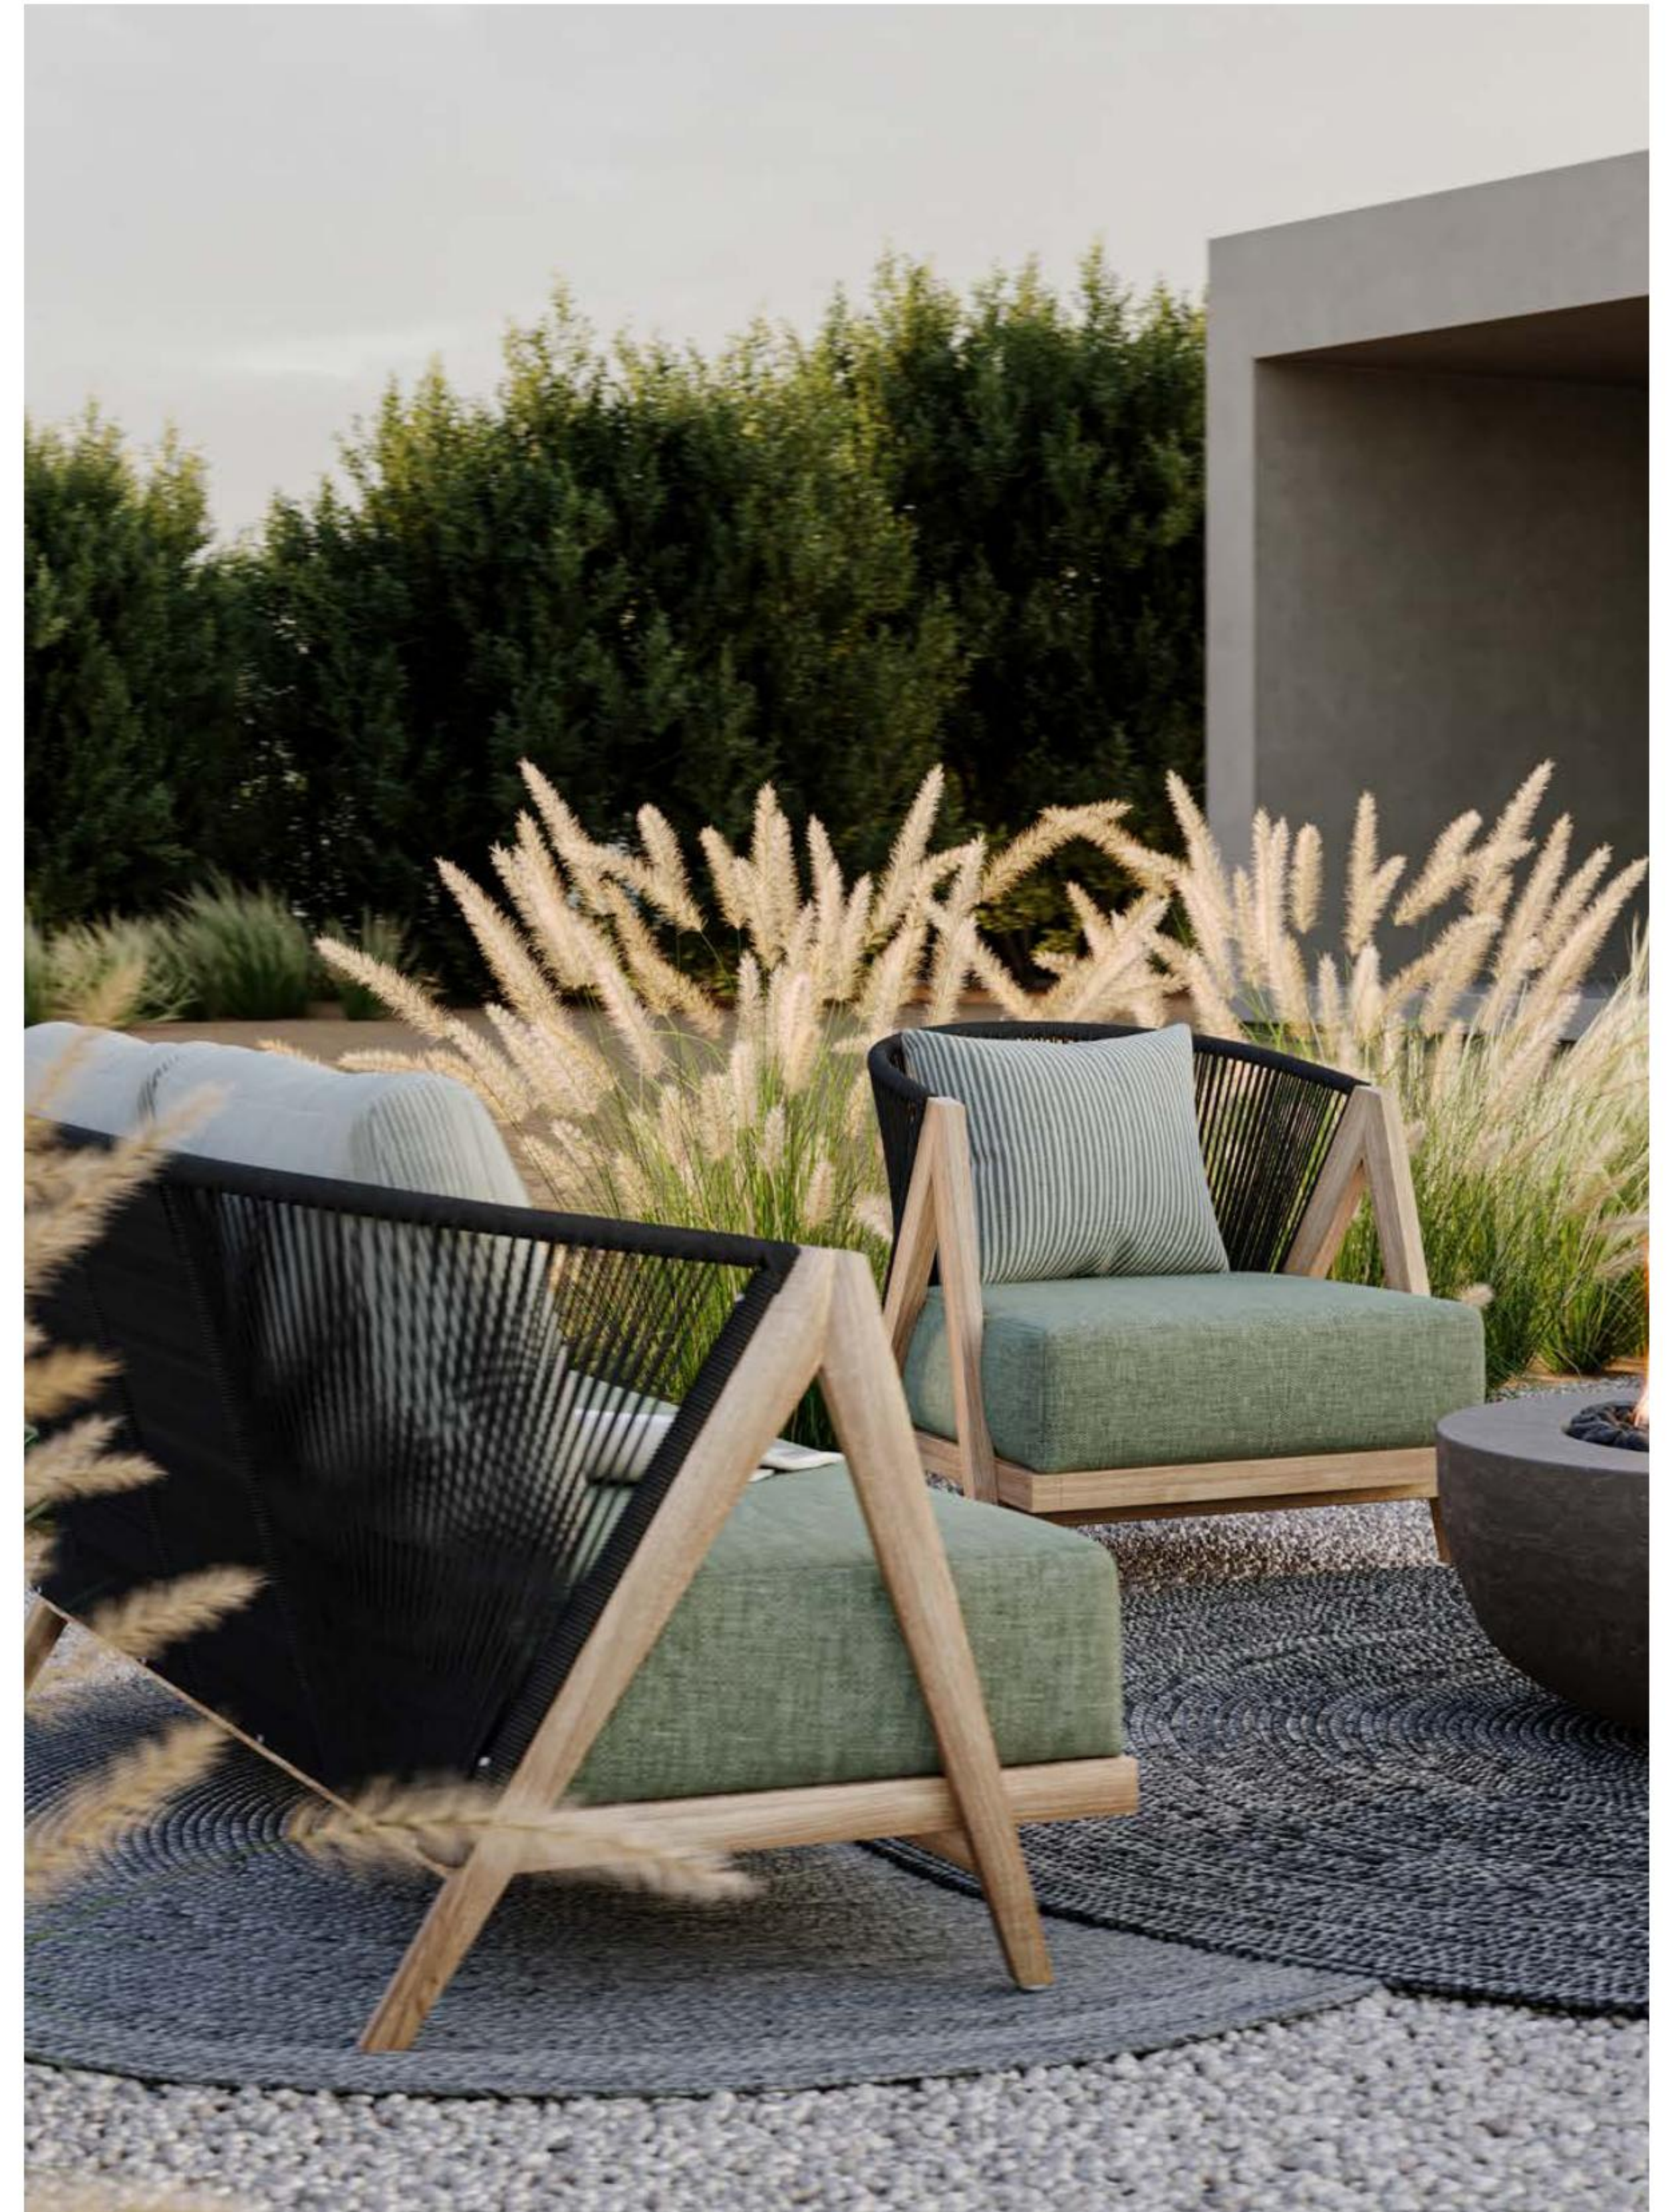

Characterized by its dramatic woven rope backrests, the Walters Outdoor Arbor Collection offers lounging and dining essentials with a stylish edge. The collection's dynamic A-frame teak structures are offset by elegantly curved backrests, which are crafted from durable, weather-resistant rope.

In addition to promoting comfort by conforming to the contours of the body, the rope backrests also create a unique and striking accent to set your space apart. The repeated lines of the woven pattern create a sense of rhythm and movement that effortlessly draws attention, while the combination of materials and textures achieve an inviting tactile richness..

OUR MATERIALS

At Walters, we offer a wide selection of quality materials and finishes for outdoor furniture, from teak and powder-coated aluminum to all-weather resin. Teak is a durable hardwood, renowned for its strength and resistance to the elements. Teak furniture is known for its natural beauty, and its light brown color will age to a silver-gray patina over time. Teak is a great choice for outdoor furniture because it is naturally resistant to rot and insect damage, and it is highly durable. Powder-coated aluminum is another great choice for outdoor furniture. Aluminum furniture is lightweight, and the powder-coated finish provides protection from the elements and is available in a range of colors. Aluminum furniture is also very durable and resistant to rust, making it a great choice for outdoor use. All-weather resin is a popular choice for outdoor furniture. Resin furniture is lightweight and durable, and it is available in a range of colors and styles. It is a great choice for outdoor furniture because it is highly resistant to fading, cracking, and chipping.

Our unique rope weave design can only be found at Walters. And if you're not sure which material or finish is right for you, you can order free samples of our materials and finishes right from our website.
